

Green Umbrella Concrete Green Clean is the first product to heal and maintain polished concrete effectively. The neutral pH of Green Umbrella Green Clean is ideal for removing dirt, without leaving film or residue. The rinse free formula safely lifts away dirt, while maintaining the brilliance and shine of your polished concrete floors. Other cleaning products may damage the floor, Green Umbrella Concrete Green Clean, on the other hand, is specially formulated for polished concrete.

Green Umbrella Concrete Green Clean is made to thoroughly clean and enhance your polished concrete. The regular use of Green Umbrella Concrete Green Clean will increase abrasion resistance by as much as 1/4 over time. The chemically reactive cleanser will continue to further seal and harden your concrete floors, making them easier to clean. Green Umbrella Concrete Green Clean not only cleans, it extends the life of your polished concrete floor, all the while reducing your maintenance cost.

BASIC USES

Remove soil from concrete floors such as warehouses, manufacturing, retail, schools, institutions, anywhere you want to improve the quality of your floors appearance.

Green Umbrella Concrete Green Clean is an environmentally responsible product.

SUPERIOR FEATURES

- Neutral pH
- Concentrated
- No Rinse Formula
- No Phosphates, No Sodium Hydroxides, No Butyls
- Compounded Concrete Hardening Chemistry
- Cost Effective
- Non Damaging

EASY TO APPLY – QUICK TO CURE – SIMPLE TO MAINTAIN

Instead of using cleaners that will etch the polish on concrete, Green Umbrella Concrete Green Clean maintains your floors. Simply dilute in water and use in Auto Scrubber or mop bucket. After diluted at 30 to 1, it will clean 600-800 sq feet per gallon.

DIRECTIONS FOR APPLICATION

Green Umbrella Concrete Green Clean is designed to be applied to a polished concrete floor.

1. Dilute 30 parts water to 1 part cleaner by volume (1 gallon of water to 4 oz of cleaner). The cleaning solution may be run through an auto scrubber or with a mop and bucket.
2. Apply to surface allow to dwell, scrub, remove. GU Concrete Green Clean should not be allowed to dry on the floor as the dirt will also dry on the surface.

In cases of heavily soiled concrete Concrete Cleaner should be allowed an extended dwell time before removal. A second application may be necessary.

Material Safety Data Pages are available

Prior to use, read, understand and follow all label and data page information and all safety information. Employee education and training in safe handling of this product are recommended.

Testing: Due to the wide variety of substrates, test the product in an inconspicuous area for compatibility prior to full scale application.

New Concrete: Concrete must be fully cured prior to using an auto scrubber on the surface.

Limitations

Not recommended for oily surfaces.

Disposal

Dispose of according to current applicable local, state, and federal regulations.

SPECIFICATIONS

Coverage 600 to 800 sq ft/ gal
in dilution, Coverage will vary due to porosity and texture of the floor

Packaging
Item Code SKU Package
5 Gallons
55 Gallons
Color - Light Green
